Dublin has not been without important local happenings during the past year of eventful world history.

Of satisfaction to its citizens was the tax rate of \$1.40 per \$100, lowest in Cheshire County and one of the lowest in the state, a decrease each year since 1936.

The State Tax Commission ruled the privately owned property of the Dublin School to be exempt from taxation. Mr. Lehmann, owner, desired to pay taxes and, accordingly, caused legal changes made to permit its assessment. The property is now taxed through his commendable attitude of community cooperation and good-will.

A stop-light, or blinker, was installed at the west end of the village oval last summer, designed to more effectively warn travel away from the dangerous large boulder.

The most destructive ice storm within our memory occurred last January, breaking off limbs, tree-tops, and completely wrecking many trees. The entire town was without electric service for several days.

Dublin, New Hampshire broadcast to Dublin, Ireland, last August 27th. Some 250 people assembled in the town hall to listen to a short wave good-will "Namesake Towns" program sponsored by Station WRUL, maintained by the World Wide Broadcasting Foundation in Boston and New York.

Harold C. Stearns, once resident of this town, a teacher in the Hackley School, New York, and for six years a student and journalist in Dublin, Ireland, arranged the program and gave the principal talk. Brief remarks were made by descendants of some of the early settlers of our town. The Lord Mayor of Dublin returned a cordial message of thanks and good wishes, and the **Irish Times** gave considerable space to the event stating that "great interest has been aroused all over Eire by the broadcast."

A fire siren was purchased and installed during the summer. Since then it has been sounded each day at 12 o'clock, noon.

Elliott S. Allison, Tax Collector, resigned his office last June to enter the United States Army. Glen H. Scribner was appointed to fill the vacancy.

A Report Center, open 24 hours daily, was established in the town house last spring, a result of the war.

The rationing of gasoline, automobile tires, fuel oil and various articles of food, became effective during the year. Both school and library were temporarily closed during the winter because of fuel shortage.

The dedication of a Service Flag, honoring the 46 Dublin Boys enlisted in the Armed Forces of the country, took place in early February, 1943. Taking part in the exercises were the school children and boys of Mr. Lehmann's Dublin School. As of date of February 1, 1943, our enlisted men include the following citizens:

REPORT OF ROAD AGENT

I hereby submit my fifth annual report.

We scraped, dragged and cleaned the ditches and culverts on all roads.

We spot treated with chloride on many roads, and applied chloride on all improved Class 5 roads.

Our allotment of tar this year was 6,010 gallons which was applied on the upper Jaffrey road.

We applied 1,392 yards of gravel and built a platform for mixing cold patch.

We also insulated the tractor house.

We have used 250 yards of sand for sanding the roads this winter.

I want to thank the citizens that left their own work this winter to assist in the plowing and sanding of roads.

Respectfully submitted,

WARREN H. PLIMPTON, Agent

REPORT OF SUPERINTENDENT OF CEMETERY

Of the six burials in the Town Cemetery the past year, but one resident of Dublin is included. Three residents were buried out of town.

Another section of the newly acquired west end of the cemetery was filled last fall and will be grassed in the spring. An estimated four acres is now cut with lawn mower and the remaining part was mowed with scythe five times during the summer. Seven dead trees were cut and removed, but this winters ice storm, the worst in years, has seriously wrecked the others, most of them maples, set out in 1840, and now fully one hundred years old. To trim and remove their broken branches will involve considerable time and expense.

We have recently completed an alphabetically arranged card system of every known burial in the cemetery, about twelve hundred names, recording the inscription on every stone, designating the location of each and showing a diagram of the occupied and vacant spaces in every lot so far as known. This will permit an expansion of names in their proper order and we feel it to be an important and valuable record. There are probably two or three hundred graves in the cemetery which have never been marked, according to the Dublin History, most of them dating back to the early settlement of the town.

REPORT OF THE DUBLIN SCHOOL BOARD

To the Citizens of the Dublin School District:

We submit the one hundred and twenty-first annual report of the School Board.

A review of the year's activities of the school shows clearly that their course has been largely determined by the war emergency through which we have been passing.

We have been glad to have the school children participate more fully in the Memorial Day services and other similar activities. We believe both the community and the children have benefited by such participation.

In the Spring Term of 1942 first aid classes were held for the seventh and eighth grades. This was made possible through volunteer leadership for which we are grateful. The project was most worth while.

The Children's Garden Project of the year before was again continued under the auspices of the Dublin Garden Club and with the cooperation of the Extension Bureau. We believe there was improvement in both the organization and supervision of the project. Already the planning for the gardens for this coming year is under way. These times make it especially valuable.

An additional project this year that seems to be proving its worth has been the training in sewing, darning, and repairing given the boys and girls for one hour each week.

This fall we faced the necessity of conserving oil. This could only be done by confining our work to the class rooms only. The gymnasium, stage, and kitchen could not be used in the winter term. This meant that such projects as indoor athletics, hot lunches, and dramatics had to be abandoned. Parts have been ordered for converting one burner to coal but as yet they have not been secured.

We are grateful to the teachers for the unselfish service they have given in carrying out the national rationing program. It has taken a great deal of extra time and they have given it cheerfully.

Another year we will have to face the probable necessity of shortening our Grammar School Bus Route to meet emergency requirements and we ask the cooperation of all parents to that end.

The School Board wishes to express its appreciation for the cooperation of the teachers, janitor, superintendent, and community in the year just past.

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS TO THE DUBLIN SCHOOL BOARD

I submit herewith my ninth annual report of the Dublin Consolidated School, together with the statistical table and summary, and also the report of Miss Margaret E. Harris, our school nurse.

The enrollment for the present school year is slightly less than last year. For the school year 1941-42 it was 101 with an average membership of 92.4. For the fall term, 1942 it was 97 with an average membership of 92.2.

Dublin schools were fortunate in having only one change of teachers from last year. Miss Alta M. Saunders, a graduate of Keene Teachers' College, 1942 has taken grades one and two formerly taught by Miss Dorothy Sawyer.

The annual meeting of the State Teachers' Association which was scheduled to meet in Manchester, October 22 and 23 was omitted, but a regional meeting in conjunction with the Cheshire County Association was held in Keene on November 20, 1942.

As mentioned in last year's report war time conditions have placed new responsibilities and duties on our schools. Beginning with sugar rationing in May, followed by gasoline rationing later in May and again in July, with fuel oil in October and canned goods in February, hours of extra work have been put in by the teachers who have carried on their duties in a most satisfactory manner.

The shortage of fuel oil has handicapped not only the social activities of the school and community, but has made it difficult to carry on the school work effectively. I am sure, however, that all concerned are using every effort to overcome these difficulties.

These days of stress and uncertainty are responsible for the shifting of courses and are causing high school pupils to leave school before graduation, but our elementary schools, while aiding in every way in the war effort should not relax their efforts to give the pupils the best possible training in the fundamentals.

The Dublin Consolidated School has made an excellent showing in the purchase of war bonds and stamps. Both teachers and pupils are to be commended for their efforts in this line.

I wish at this time to thank the school board, teachers, pupils and parents for their support in our important work.
